

GOMEZ WILL LEAD TROOPS IN PERSON

Venezuelan President Plans to Take the Field Against General Castro.

WILLEMSTAD, Aug. 2.—Juan Vicente Gomez, the President of Venezuela, has determined, according to advices received here from Puerto Cabello, personally to lead his troops in an attack against the rebels, who, under the leadership of Gen. Cipriano Castro, are now invading Venezuela.

President Gomez traveled by rail today to Puerto Cabello, about 100 miles to the east of Caracas. It is reported that he intends to embark at that place on board the warship Maresa Sucre, formerly the Isla de Cuba, which was purchased by the Venezuelan government from the United States last year, and proceed to Coro, the town in the state of Falcon, where the government officials are reported to have been killed or imprisoned by adherents of General Castro.

Telegraph Wires Cut. Since the rebellion began telegraphic communication between Coro and Caracas has been interrupted, and reports from the Venezuelan capital say the government has received no definite news from the state of Falcon, where General Castro is supposed to be operating.

Troops Mobilized. Mobilization of the Venezuelan government troops in Caracas has been completed, and an expedition is expected to leave the capital at any moment to encounter the invaders. The government troops are well equipped and thoroughly equipped for any service.

An overwhelming government army has been prepared and is ready to march, with the intention of crushing Castro and his followers in the first battle.

Important Events on This Date in History

Events of historic interest on this date include: 1783, Capt. Louis Celeron took possession of the territory at the forks of the Ohio in the name of France; 1784, command in the Highlands of the Hudson, with the works at West Point, given to Gen. Benedict Arnold; 1847, telegraphic service established between Toronto, Buffalo and Montreal; 1858, Lake Victoria Nyanza discovered by Captain Speake; 1864, Pennsylvania adopted a constitutional amendment allowing soldiers to vote; 1888, Spain accepted the American conditions of peace.

Capital Man Named On Monument Board

John H. Wolf, of Washington, has been named by Governor Sulzer, of New York, as a member of a commission of five to erect a monument at Battlefield Cemetery, Brightwood, to the Twenty-fifth New York Volunteer Cavalry. The Twenty-fifth distinguished itself there in the battle of Fort Stevens, July 11 and 12, 1864, when Washington was threatened by the Confederates under General Early. Mr. Wolf was a member of this regiment and is familiar with the battlefield as it was then and as it is now.

Castro Declares War On the "Crazy and Ferocious Gomez."

Gen. Cipriano Castro in a proclamation dated Coro, July 27, says: "War has become inevitable. I declare myself in campaign against Juan Vicente Gomez, whose treason and usurpation of power since 1908 have become a real catastrophe calling me from private life. "Crime extends its horrible wings over the whole Republic of Venezuela. "The crazy and ferocious Gomez bears on his forehead the eternal mark of a traitor. His brutal look and his peridious smile encourage his few followers to finish the ruin of the fatherland. "Heroic Venezuela acclaims me again to vindicate her rights. "I am a slave to honor and duty, and I accept the honor. "My program in regard to domestic affairs is to save my country from threatening anarchy, and my foreign policy is to join hands with civilization and progress on the basis of equity and justice. "Everybody in Venezuela should take arms and contribute to the salvation of the fatherland."

EXPRESS CHARGES NOT TO BE CHANGED

Agents of Companies Think There Will Be No Rate-Cutting War.

There is to be no reduction of express rates in Washington and surrounding territory, according to the general representatives here of the express companies. Notwithstanding repeated rumors and published statements that the express companies were going to reduce rates to meet parcel post competition, and that reductions ranging from 2 to 8 cents between Baltimore and Washington were proposed, every one of the express company representatives in Washington stated definitely today that they knew absolutely nothing of any reduction of proposed reduction.

Agents Not Notified. D. H. Killian, general agent of the Adams and Southern Express Company; A. E. Jones, general agent of the American Express Company, and W. C. Johnson, general agent of the United States Express Company, each declared that they had not only not received official notice of impending reductions in rates, but that they had no knowledge, official or otherwise, of any proposed reduction.

Mr. Killian stated that he did not believe that his company even contemplated any such action to compete with reduced parcel post rates. "Competing with the parcel post, a business without a profit, is practically impossible," he said.

Up To Traffic Board. Each of the general agents declared that any move toward reduction of rates in this territory or in general would be taken by the traffic board in New York, and that so far as they knew the traffic board had no such move under consideration.

It was intimated that the express companies did not propose to run active competition with the parcel post, and that they would rather abandon the business than enter rate-cutting competition.

A general rate adjustment by the express companies was under consideration jointly by the Interstate Commerce Commission and the express companies in February and March, but no action has yet been taken by the traffic board in New York in this respect.

MEDIATORS BUSY ON RAILROAD ROWS

Judge Chambers Going to Fix Up Chicago Trouble—Hankar to Frisco.

With conditions acute between employees of the Chicago Belt railway and the Western Indiana railway and the management, Judge Chambers, commissioner of mediation, will leave this evening for Chicago to take Federal action in the case. At the same time Assistant Commissioner Hankar will leave for San Francisco, where there is imminent trouble between the conductors and trainmen and the management of the Southern Pacific railway.

Commissioner Chambers, after completing the mediation work at Chicago, will go to St. Louis, where he will be mediator in the controversy between the St. Louis and Southwestern and Cotton Belt lines and their management. Some weeks ago, before the Erdman act amendment created the mediation board, the judge consented to act as arbitrator in this last dispute. Then he canceled all engagements as arbitrator, but consented to act as mediator under the new law.

Conditions on the Central Vermont railway may also demand early attention, for the engineers and firemen have delivered a strike ultimatum. The management of the Central Vermont, however, up to this time has declined the offers of the mediation board, and may stand pat on its concession of a 10 per cent increase. The employees, however, seek more than 10 per cent increase, so that they may be on a par with engineers and firemen under the New York awards of a year ago. This standard would give them a higher rate than the employees of the Grand Trunk railway of Canada, which owns the Central Vermont.

Judge Chambers has wired the president of the Grand Trunk, but has received no reply to his offer of assistance in the dispute. If the road can reach an agreement with its men, it may submit the differences to the Canadian board of mediation, which has some mandatory powers.

Honors Are Proposed for Dead Spanish Sailors. PORTSMOUTH, N. H., Aug. 3.—Capt. William L. Hill, in charge of the Government cemetery at the navy yard, has asked permission to move the bodies of thirty-one Spanish prisoners who died in the stockade on Somers' island in 1898 to a special lot within the cemetery.

An Olive Oil Famed for Its Food and Medicine Value---We Sell It

Physicians recognize pure olive as a valuable food and a very valuable medicine. But it must be pure. We have made provisions for your protection against adulteration and inferior grades by selecting an oil from a reliable source and as a double protection have it tested ourselves. It is the true virgin olive oil—that is, the first extraction from the nearly ripe olives which have been carefully hand-picked to avoid deterioration by bruising and immediately pressed. The taste tells. As a rich table delicacy this oil has no equal. It is so smooth and its nutty flavor is so fine. As a medicine its purity recommends it. To put flesh on a wasted form, to help lung troubles, as a general body builder it is a wonder.

E-Z Tablets For Constipation and Associated Diseases They Act Easily and Pleasantly

Chronic constipation is one of the most serious conditions in which the human individual can find himself. The bowels constitute one of the main sewers of the body. It is of the very first importance to the health of the individual that this sewer be kept constantly open and in fit condition to perform its duties, otherwise the whole system becomes poisoned by waste material that lies as a filthy refuse heap at the very door of life. The regular, systematic removal of this waste is absolutely necessary if we are to be well.

Very commonly, as every one knows and many have experienced, the bowels refuse to attend in an orderly manner to the removal of the body waste. If health results. Sometimes this ill health makes itself felt by causing pain, a feeling of tiredness, loss of appetite or severe headaches. Sometimes constipation continues for days and we disregard it, because, for some reason, it has not made us feel sick; but we should not think, simply because we do not at once feel sick, that the accumulation of filth due to constipation is not filling our system with poison.
